

Manual: Assembly of Bottle Holder on Walker 12er size S

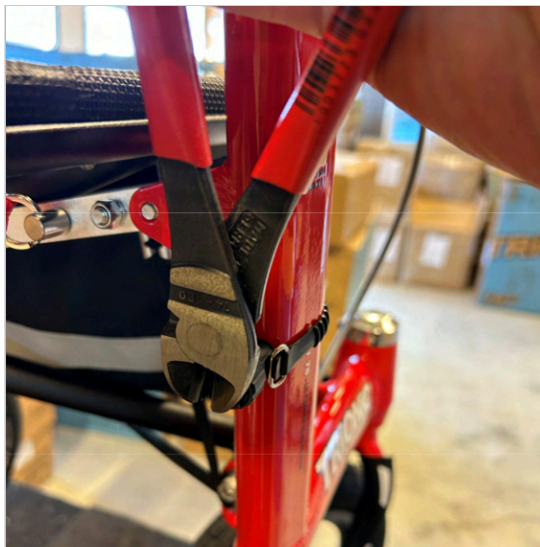

① Place of assembly of the bottle holder (R or L).

② Wrap the strap around the frame tube and pull it through the holder.

③ Pull the strap tight and turn the nut clockwise to tighten the strap.

④ Cut the excessive strap off.

⑤ Mount the second holder in the same way.

⑥ The two holders correctly assembled on the frame tube.

⑦ Attach the bottle holder with the two screws. The “opening” of the bottle holder should face outwards.

⑧ The bottle holder is now attached to the frame and you enter the bottle from the side and remove it outwards.
